Lambda Letters Second Annual Membership Meeting

Nominations for Board Members Being Accepted

Deadline for Nominations October 31, 1994

The Lambda Letters Project will hold its second annual membership meeting on Saturday, 21 January 1995 in Sacramento. Please mark your calendars! The meeting site is still to be determined. The agenda will include the election of additional Board members, approval of Lambda Letters' 1995 budget, and other important business of the Project.

Our bylaws require that we publish a list of all those nominated for election to the Board. The list must be published at least 30 days in advance of the meeting in which the election is to take place. Since our last mailing for 1994 will be sent in early November, we must have the names and any background information about the nominees by no later than October 31, 1994. If you wish to run for the Board, or if you want to nominate someone, please send the nominee's name and

People of Color Issue

An End to Legal Discrimination!

The Ward's Cove Packing Company is the only company in the United States that has been given explicit permission by the government to discriminate against its employees on the basis of their skin color. At a time when open racial discrimination and segregation have been virtually eliminated in almost all aspects of American society, this fact comes as a surprise to most.

Twenty years ago, a group of Ward's Cove employees files a class-action suit against the company for discriminatory hiring and promotion practices at its Alaskan fish cannery. While Asian-Pacific Americans and Native Americans were assigned to menial jobs and manual labor, management positions were open only to white employees. The company also enforced a policy of strict segregation, requiring employees to wear different tags based on their race, and maintaining separate eating and housing facilities for white and minority employees.

Twenty years later, Ward's Cove still practices these policies. While the original court case is

Lambda Letters Scoreboard

Here is an update on legislation that our members have written on in the past few months:

State Bills

A.B. 2610 (Author, Vivian Bronshvag-D): Would have allowed counties to establish clean needle and syringe distribution programs as a way of slowing the spread of AIDS among intravenous drug users and their sexual partners. Lambda Letters supported A.B. 2610. Vetoed by the Governor.

A.B. 2810 (Author, Richard Katz-D): Would have allowed statewide registration of domestic partners. Lambda Letters supported A.B. 2810. Passed the Legislature but was vetoed by the Governor.

A.B. 2849 (Author, Martha Escutia-D): Requires counties with 100 or more women with AIDS/HIV disease to establish women's comprehensive services outpatient clinics. At present this affects San Diego, Los Angeles, San Francisco, and Alameda counties. Lambda Letters was not previously aware of this bill and did not take a position on it, but it was supported by California NOW. The Governor signed this bill into law.

A.B. 3374 (Author, Johan Klehs-D): Would have increased penalties on the owners of sweat shop places of employment that violate labor laws. Lambda Letters supported A.B. 3374. Passed in the Assembly and the Senate. Vetoed by the Governor.

S.B. 2061 (Author, Gary Hart-D): Would have allowed members of the Public Employees Retirement System (state and local government employees) to enroll their domestic partners on their employer-provided health insurance plan. Lambda Letters supported S.B. 2061. Passed the Senate and the Assembly. It was returned to the Senate for concurrence on amendments made in the Assembly. It failed in the Senate when Senators Quentin Kopp (Ind.) and William Craven (R) reversed their earlier support of the bill.

Federal Bills

Violence Against Women Act: Passed by both houses of Congress as part of the major crime bill. Signed by the President. Lambda Letters supported the Violence Against Women Act but took no position on the larger crime bill.

H.R. 6, The Elementary and Secondary School Education Act: This bill provides funding for elementary, middle, and high schools. Both the House of Representatives and the U.S. Senate had attached amendments prohibiting the distribution of funds to schools with gay-positive programs. The House and Senate versions were sent to a conference committee to iron out the differences between the two versions of the bill. Lambda Letters (that means you, folks) sent over 880 letters to key members of Congress urging them to drop the anti-gay language from the bill. The conference committee sent a compromise version of the bill back to both houses of Congress, where they removed the anti-gay language from the bill. It now seems likely that, if the bill passes, it will not prohibit funding of gay-positive programs in our schools!

λ

Three Strikes and (Just Maybe) He's Out!

Pete Wilson Vetoes a Needle Exchange Bill Again

For the third year in a row the California Legislature has passed a bill that would authorize counties to begin pilot needle exchange programs; and for the third year in a row Governor Wilson has vetoed this bill.

Why is needle exchange so important? Injection drug users are the second largest group at risk of becoming infected with HIV, thus likely to develop AIDS. They are also the primary of heterosexual, female, and prenatal transmission in California. The lack of sterile needles on the streets promotes needle sharing, and the spread of HIV from intravenous drug users (IDUs) to their non-drug-using sexual partners and children in the womb.

When viewed as part of a comprehensive HIV-prevention program targeting IDUs, needle exchange is an effective intervention. Only last year, after reviewing numerous studies of needle exchange programs in the United States and abroad, the National Commission on AIDS urged the elimination of regulations and laws that block the implementation of needle exchange programs. According to the Commission, "fears that needle and syringe exchange and distribution programs might encourage drug use and a new class of drug injectors have not materialized." In a nutshell, access to clean needles does not produce new addicts! Instead, it slows the spread of

Letter and Article Composer Needed

Sharlene Gilman has done an excellent job over the past year researching our gay/lesbian/bisexual subject each month and composing the monthly sample letters and articles on that subject. However, she has had to withdraw because of outside responsibilities. We need to find a replacement for this important volunteer position. Although one person has volunteered, she feels she needs to share the job with one other person.

We need someone in the Sacramento area with good writing skills who will spend about 10 hours a month researching possible subjects and then composing sample letters and articles for our newsletter. He or she would also need to attend a monthly, weekday evening, staff meeting in which each month's subjects are chosen. The project can provide leads on how to find suitable subjects and advice on writing if needed. This is a great opportunity for you to influence the subjects we cover.

Interested? Please enclose a note with your letters, or call us at (916) 965-6851.

HIV/AIDS and saves lives and resources. Yet this is one of the arguments that Governor Wilson used to back his veto of A.B. 2610. He just doesn't get it.

Needle exchange is supported by most of the major public health groups in California, including the California Medical Association, the California Nurses Association, the California Conference of Local Health Officers, County Drug Program Administrators, the California Pharmacists Association, as well as numerous HIV service and drug treatment organizations across the state. Unfortunately, for three years in a row Pete Wilson has failed to listen to the sound advice of these organizations.

Thus, this month we are writing to members of the State Assembly, urging them to support a needle exchange bill when it is introduced in the 1995-96 legislative session, and to pass this bill early and with a veto-proof majority. It is long past the time for such a law. Without it, California lags behind many states in the U.S., as well as many nations in the world.

Deadline is the 25th of each month.

Beware the Smoke & Mirrors!

Proposition 188, the Smoking and Tobacco Products Initiative, promises to repeal local ordinances that ensure a smoke-free environment in eating establishments and other public spaces. Sponsors like Philip Morris Inc., one of the larger tobacco companies, have already pumped nearly \$2 million into passing and qualifying the initiative. Millions more are being spent on deceptive advertising to make Californians think that Prop. 188 is really an "antismoking" initiative. Every time someone stops smoking or fails to start this habit, tobacco companies lose money. Using the rhetoric of "freedom of choice," this "Philip Morris Initiative" is seen as an attempt by the tobacco industry to increase profits by making it, by law, easier and more convenient for people to smoke when they wish to.

This issue is of grave importance to women, who are suffering from tobacco-related cancer at an unprecedented rate. Smoking kills more than 125,000 women every year in this country alone. In fact, lung cancer has *surpassed* breast cancer as the leading cancer killer among women.

In California, waitresses have the highest mortality rate of any female occupational group. They have four times the expected lung cancer mortality than other women, and two-and-a-half times the expected heart disease mortality rate. This is due in part by working in a second-hand smoke environment.

Studies have shown that once women start to smoke, they find it more difficult to quit than men, and make fewer attempts to quit as well. Studies have also shown that smoking bans implemented in the workplace have helped smokers quit. Under Prop. 188, smoking will be allowed to return to the workplace and women will find quitting as difficult as before.

Finally, no one needs to be reminded that when a pregnant woman is exposed to second-hand smoke, her fetus is exposed to its harmful effects as well.

All women will be affected by Proposition 188. Vote NO on it, and take a stance against the tobacco companies' attempts to continue making profits with little regard for millions of workers in this state.

The League of Women Voters has been an important and positive influence in the political and

Support Good Therapy for Our Youth

Please write to Dr. Jerry Weiner, President of the American Psychiatric Association. Urge his organization to issue a policy statement which supports competent, nonjudgmental care to adolescents who identify themselves as lesbian, gay, or bisexual, or who are questioning their sexual orientation.

The American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders IV (1994) lists a disorder called "Gender Identity Disorder." The description of this disorder labels as "sick" those children who don't conform to the stereotypical norms for boys and girls (for example, girls who prefer not to wear dresses or who like contact sports). The definition has often been the basis for the punitive "treatment" of lesbian, gay, and bisexual youth. It has ensnared many youth who cannot fit rigid and outdated gender roles and it contributes to the high suicide rate among lesbian, gay, and bisexual youth.

Each year thousands of these youth are committed to some form of "therapeutic" group care. These programs are often harsh and frankly seek to convert the youth to a heterosexual orientation—by force, if necessary.

In California, New Mexico, Utah, and other western states the Gender Identity Disorder definition can be used by parents or others seeking to commit a young person to a psychiatric facility against the child's will. Often commercial services are used to capture the youth for committal.

This is a tragic situation which does untold damage to many, many youth. The American Psychiatric Association must be persuaded to change its policy on lesbian, gay, and bisexual youth in order to improve the treatment of such youth by its members and to eliminate the excuse for others to mistreat these innocent children.

social community in regards to women's issues. Please be sure to sign the letter addressed to the League of Women Voters and encourage them to endorse publicly a NO vote on this insidious Proposition.

Why Bother to Write on Vetoeed Bills?

Many of you heard the news stories that A.B. 2810, the Domestic Partner Registration Bill, had been vetoed by the Governor. Some of you wrote to us asking if there was any point in sending a letter to the Governor on this bill. The office of Assemblyman Katz, who authored the bill, asked us to continue sending letters and we did so, with a cover letter telling the Governor that he had made a serious error in vetoing A.B. 2810.

Governor Wilson may or may not be returned to a second term in this fall's election. If he is, he needs to know that many people care about domestic partnership and that he should not oppose it next year. Sending these letters now, and supplementing them with additional letters next year, helps create an atmosphere in which eventual passage of this legislation is more likely. So, thank you for all you letters on A.B. 2810.

Your Internet Address Is Wanted

Do you have access to the Internet? If so, the National Gay and Lesbian Task Force (NGLTF) would like you to send your e-mail address to them at dklngltf@aol.com. This will allow them to alert many people quickly when immediate input from constituents is needed on an issue of importance to our community.

Please note: We'd like your e-mail address for the same reason. Please send your address to us at boyceh1021@aol.com (we are on America Online).

Legal Discrimination

Continued from page 1

still pending, the company scored a huge victory when, on the company's behalf, the two U.S. Senators from Alaska had a provision amended into the Civil Rights Act of 1991 expressly exempting them from the requirements of this law.

The policies and practices of Ward's Cove are a direct affront to all the civil rights progress we've made to date. The existence of legal discrimination and segregation within the boundaries of the United States not only affects the workers at Ward's Cove, but also jeopardizes the civil rights of every citizen. Civil rights which are granted to some but not to others are not civil rights at all. Until the workers at Ward's Cove are protected by our civil rights laws, no U.S. citizen can truly claim to be protected by these laws.

Since the U.S. legislative session will adjourn before your letters can reach your representatives, this month's letter will be sent to the major companies who buy fish from the Ward's Cove Packing Company—among them Bumble Bee, Safeway, S&W, and Chicken of the Sea—asking them to stop purchasing products from them until they end their discriminatory practices.

Entertainment '95 Book Sales Are Sizzling!

The sales of Entertainment Books have been breaking all records! We've already sold 120 books and the orders are coming in thick and fast every day. Last year we sold a record 252 books and we hope to *detonate* that record this year.

The books are extremely popular because they provide such fantastic savings at hundreds of restaurants, theaters, hotels, airlines, car rental agencies, etc. Most people recover the cost of the book within just a few weeks by using the 50 percent-off and 2-for-1 coupons. From then on the savings for the Entertainment Book user are pure gravy!

Entertainment Books for the whole state are now available. There are 23 editions available, each covering a different part of the state. Check the enclosed order form to see if your area is covered.

Actually, you can get a *free* Entertainment Book by helping us sell them. Anyone who sells 11 books can keep a 12th one *absolutely free*. One woman in Sacramento has already earned four free books and is close to earning a fifth one. We think she's completing her holiday shopping list—lots of good gifts for her friends at no cost to herself. You can do it too. Just let us know, and we will supply you with the materials needed to earn your free Entertainment Books.

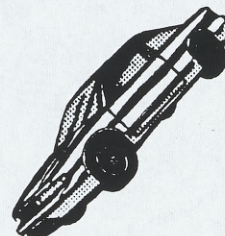

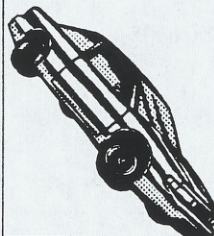

The sale of Entertainment Books provides a major part of the income needed to support Lambda Letters each year. When you buy your book, you create a win-win situation. You get a tremendous value and Lambda Letters gets much needed income.

Please order your book today!

The Elections Are Coming!

*Examine Their Records
and Make an Educated Vote*

The elections are coming and each of us needs to decide whom to vote for. Lambda Letters is a nonprofit corporation and therefore cannot support or oppose any candidate. However, we thought it might be useful to tell you how your state Senators and Assemblymembers voted on a few key bills in the state legislature. You will find reports of their votes in Tables 1 and 2 in this newsletter. Please note that an "N" in the table means the legislator voted against the bill, a "Y" means the legislator voted for the bill, and an "A" means the legislator did not vote on the bill.

Here is an explanation of the four bills we selected for vote counts:

⌘ *A.B. 2610* (Author, Bronshvag-D): Would have permitted counties to establish clean intravenous needle distribution programs. The Governor vetoed this bill.

⌘ *A.B. 2810* (Author, Katz-D): Would have permitted the statewide registration of domestic partners. Was sent to the Governor, who vetoed it.

⌘ *A.B. 2849* (Author, Escutia-D): Requires counties with 100 or more women with AIDS/HIV disease to establish women's comprehensive services outpatient clinics. At present this affects San Diego, Los Angeles, San Francisco, and Alameda Counties. The Governor signed this bill into law.

⌘ *A.B. 3374* (Author, Klehs-D): Would increase the penalties for sweatshop manufacturers who allow working conditions in their shops that are in violation of the state's Labor Code. People of color form a large percentage of the workers in these shops. Vetoed by the Governor.

Take a look at the vote counts on these bills and consider them as you make your decisions about whom to vote for.

background information to us by that date. We would also appreciate having the addresses and phone numbers of the candidates so we can confirm their willingness to run. *Note:* the bylaws do allow the nomination of additional candidates at the annual meeting.

A member is defined by the bylaws as any person who subscribes to the purposes of the Lambda Letters Project and is a volunteer or contributor to the corporation or who is a letter writer in good standing (as established by the Board). A "letter writer" is any person who signs letters prepared by the Project or composes original letters and submits them to the Project for mailing to the addressee.

Please submit your name, address, phone number, and background information if you would like to serve on the Board of Directors and please plan to attend our annual meeting on January 21, 1995. Help us make Lambda Letters a representative democracy!
